77. In the Pink
78. On the Beach

Please remember to make a separate note of the entries you are exhibiting for your own records.

Hints and Tips on presenting your exhibits

This is not an exhaustive list, but a few tips which may help when presenting your exhibits. It is difficult to always present entries that are perfect, but don't be put off as we are all "in the same boat".

French/Runner Beans: Fresh pods, straight and same length – leaving a portion of the stalk on each.

Onions/Garlic: Uniform well ripened bulbs; avoid over skinning; wash roots and trim, leaving some on. Leave 7cms of stalk and bend over and tie or whip.

Potatoes: Same size – free from skin blemishes – wash gently.

Courgettes: Young tender shapely and uniform. Can be displayed with or without flowers on.

Tomatoes: Aim for uniform firm set of fruit with small eyes and firm fresh calyces (the small leaf like bit where the stalk joins the fruit).

Carrots: Straight uniform size, washed carefully – leaving on approx. 6–7cms of stalk.

Beetroot: Pick roots of even size, 6 – 8cms across, leaving on the tap root and approx. 7cms of stalk.

Marrow: Tender fruit around 30cms in length if possible

Cabbage: Solid head with no damage, remove only a minimum of outer discoloured leaves. Leaving approx. 7cm of stalk attached.

Fruit: Always leave stalks on.

Dahlias Roses: If one specimen bloom is required do not leave any buds on the stem, as these are also counted as blooms.

Jam/Marmalade & Jelly:

Jars should be clean and well filled to about 3mm from the top.

Covers wax circle with cellophane outer cover or twist top, which should be plain – not a commercial lid when showing.

Colour should be even, bright and characteristic of fruit used – no scum, mould, sugar crystals or foreign bodies.

Fruit should be evenly distributed and tender.

Consistency should be jellified, not runny or sticky.

Flavour should be full, fresh and characteristic of the fruit used

Pickles & Chutney:

Jars should be clean and filled to about ½ inch (12mm) from the top and labelled with contents and date of making.

Tops of jars must be vinegar resistant.

Chutney should be bright in colour and smooth consistency – well blended with no pieces of onions, skins etc.
